Investment Strategy

- This Fund focuses mainly on the stocks of companies with market capitalizations similar to those companies in indices such as the Russell Midcap® Value Index.
- A forward-looking investment approach is used based on the belief that rigorous independent research is key to identifying quality, well-positioned businesses selling at compelling valuations.

*Performance data cited represents past performance and should not be viewed as an indication of future results. Investment return and principal value of the investment will fluctuate so that an investor's shares, when redeemed may be worth more or less than the original cost. Current performance may be lower or higher than the performance data quoted. Call 800-THRIVENT or visit Thrivent.com for performance results current to the most recent month-end.

Lipper figures do not include sales charges or fees. If included, returns would have been lower. The Russell Midcap® Value Index is an unmanaged index composed of the mid-cap value segment of the U.S. equity universe.

For additional performance information, visit Thrivent.com, Mutual Funds & Investments, Mutual Funds and choose a fund from the list. For example, Morningstar star ratings and Lipper, Inc. peer rankings can be found on the Statistics tab.

Fund Management

Risks: The Fund is exposed to the risks of investing in equity securities of medium-sized companies, which often have greater price volatility, lower trading volume, and less liquidity than larger, more-established companies. These companies tend to have smaller revenues, narrower product lines, less management depth and experience, smaller shares of their product or service markets, fewer financial resources, and less competitive strength than larger companies. Value funds are subject to style risk in that value investing may fall out of favor with investors. These and other risks are described in the Fund's prospectus.
